13. [ ] (LLM) LIAISON Called George Murphy, Executive Director, Joint Committee on Atomic Energy, referring him to page 61 of the 16 February 1972 transcript and told him that other than possible elaboration on that incident we do not have any assessment or analysis as requested in his 26 January 1976 letter concerning diversion of nuclear material. Murphy insisted that he receive a prebriefing before calling this elaboration to the attention of the members of the Committee. Carl Duckett, DDS&T, and I met with Murphy later in the afternoon and it turned out that Murphy knew a great deal more about the incident than we did and no further action is required.
